Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the application. • Enters the event description and interests. • Searches for conversation ideas.	• Generates personalized conversation starters. • Uses fact-checking for discussion topics. • Selects useful suggestions.	• Reviews conversation history. • Provides feedback (👍/👎). • Uses previous conversations for future events.
Touchpoint <i>What part of the service do they interact with?</i>	• Streamlit Home Page. • Event Description Input. • Interest Selection.	• Conversation Generator. • Wikipedia Fact Checker. • AI Response Display.	• History Page. • Feedback Section. • Saved Conversations.
Customer Thought <i>What is the customer thinking?</i>	• "I need good conversation starters." • "I want to make a good impression." • "This event is important."	• "These suggestions are useful." • "Let me verify this information." • "This will help me speak confidently."	• "Which conversation worked best?" • "I'll use these ideas again." • "My networking skills are improving."

Customer Feeling <i>What is the customer feeling?</i>	Curious, hopeful, and slightly nervous.	Confident, prepared, and engaged.	Satisfied, motivated, and more confident.
Process Ownership <i>Who is in the lead on this?</i>	User & AI Input Module	AI Models (DistilBERT, GPT-2) and Fact-Checking Service	History & Feedback Module
Opportunities <i>How can we improve this stage?</i>	• Add event templates. • Recommend interests automatically. • Improve input guidance.	• Generate more personalized responses. • Support multiple reliable knowledge sources. • Improve response speed.	• Show networking progress analytics. • Recommend follow-up conversation ideas. • Allow exporting conversation history.
