

Communication

Date	03-07-2026
Team ID	
Project Name	Personalised Networking Assistant
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Telegram	Internal Team Members	Sync daily task progress, assign pipeline items, and resolve internal blocks.
2	Progress Update	Weekly	Telegram	Team & Mentors	Share status markers regarding completion of project milestones.
3	Issue / Bug Discussion	As Needed	Google Meet / GitHub	Internal Team Members	Debug environment runtime path errors, execution blockages, and package installation issues.
4	Stakeholder Review	Bi-Weekly	Google Meet / YT Live	Team & Smartbridge Staff	Attend reviews, track compliance metrics, and align design steps with requirements.
5	Final Demo Rehearsal	Once	Google Meet	Internal Team Members	Dry-run the synchronized loopback deployment (FastAPI and Streamlit) before final evaluation.
6					

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Information Overload & Message Flooding: Important announcements and links got instantly buried in the main Telegram group because hundreds of students and faculty members were texting all the time.	Used Telegram's search filters to explicitly scan for keywords like "Google Meet," "Link," or messages pinned by admin staff, bypassing the student chat spam entirely.
2	Confusing & Chaotic Live Sessions: Some Google Meet and YouTube Live sessions lacked clear coordination, making it hard to follow instructions or get immediate clarity on project goals.	Waited for the official reference materials and GitHub templates to be sent out post-session, using them to self-study, clarify doubts, and successfully figure out the steps.
3	Fragmented Communication Channels: Missing critical templates or forms because updates were split randomly between emails, Drive links, and messy Telegram chat histories.	Referred to pinned messages for links.
