

Project Demo Planning

Date	03-07-2026
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Context	Outline the problem statement regarding networking anxiety and present the high-level system architecture.	30 secs	Kaverigari Meghana
2	Backend API & Testing	Show the terminal execution of pytest and demonstrate the live FastAPI Swagger UI /docs page.	1 mins	C S Madhulika
3	Core Feature Demo	Input sample prompts to generate AI icebreakers and show zero-shot semantic badges in the Streamlit UI.	2 mins	Kaverigari Meghana
4	Fact-Checking & Logs	Demonstrate the Quick Fact Verification search and prove local file persistence in history.json and feedback.json.	1 mins	C S Madhulika
5	Conclusion & Roadmap	Wrap up with project takeaways, the multi-agent vector storage upgrade roadmap, and team self-reflections.	30 secs	Kaverigari Meghana

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain how the app solves the problem of preparing for professional interactions efficiently using localized AI inference.
2	Solution Overview	Give a quick overview of the dual-module setup: the FastAPI backend engine communicating over loopback ports with the reactive Streamlit frontend.
3	Live Feature Demonstration	Step-by-step walk-through: 1. Generate an icebreaker starter. 2. Run a background fact-check. 3. Open the file directory to show that logs instantly wrote to history.json and feedback.json upon clicking UI controls.
4	Q&A Session	Defend the architectural design choice of utilizing low-overhead JSON file arrays instead of heavy database installations for a micro-project scope.
