Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1.	Kaverigari Meghana	Co-Developer / System Integration	Live UI Demonstration, Data Persistence, & Scalability Roadmap	Co-designed and built the system pipeline; deployed the Streamlit frontend UI framework, verified real-time file logging to JSON arrays, and presented future upgrades.	Active
2.	C S Madhulika	Team Leader / Co-Developer	Introduction, FastAPI Architecture, & Backend pytest Verification	Co-designed and built the system pipeline; handled backend orchestration setup, port configuration, and executed automated unit tests via pytest.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Madhulika
Overall Team Coordination Rating (1-5)	5 / 5
Any issues during demo	A brief port binding overlap occurred because a background terminal process held port 8000 open right before initialization.
How issues were resolved	Madhulika ran terminal commands to isolate and close the blocked port thread, while Meghana instantly cleared the environment's runtime cache to ensure a smooth launch.
