Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • "I don't know how to start a conversation." • "I want to network confidently." • "I need reliable information before talking to people."	THINKS • "Will I make a good first impression?" • "I hope I don't run out of things to say." • "I should prepare better before the event."
PERSONA NAME (Role / User Type) College Student / Young Professional (Networking Event Attendee)	
DOES • Attends seminars, conferences, and networking events. • Searches online for conversation topics and event information. • Uses tools and notes to prepare for interactions.	FEELS • Nervous about approaching new people. • Eager to learn and build meaningful connections. • More confident when well prepared.
